PRIORITY 1 and 2 TOTALS						\$2,965,000						

1) **Priority:**

Priority 1 projects are those with a contract and contractor. These projects are dependent upon U.S. EPA awarding of ARRA/LUST Trust grant monies to ADEQ through a cooperative agreement.

Priority 2 projects are those that are scheduled for ARRA/LUST Trust activity. The contract procurement process will begin upon U.S. EPA awarding of ARRA/LUST Trust grant monies to ADEQ through a cooperative agreement.

2) **Project Cost:**

All project costs are “direct” costs to contractors to conduct cleanup of LUSTs at the specified facilities. No ARRA/LUST Trust monies are used for ADEQ personnel costs.

3) **Green Project:**

All projects are “green” because they result in environmental cleanup of properties with UST-related pollution and may result in properties that are more amenable for communities to redevelop. All projects are conducted by contractors that are on the existing State Tanks contract list.
